| 3.Roy Beasley (Packington) | 19 – 15 | | |
| 4.Paul Truman (Packington) | 19 - 2 | | |

FISHING REPORT

MOLANDS . A more settled week saw a n improvement in the fishing with some some nice carp caught with the biggest reported a 22lb mirror and there were a number of high doubles caught with peg s 8-15 throwing up the bigger fish on popped up boilies.In the matches Maggot feeder or bomb and bread have accounted for nets to 40lb with 44- 60 the most consistent area.

GEARYS . The high bank from pegs 9-13 has been the best area with nets to around 70lb being caught in matches with waggler and pellet or bomb with punched bread the top tactics. Carp to over 21lb were caught in matches. The silver fish sport is still a little patchy with nets to around 15lb coming to maggot or pinkies fished over groundbait.

LITTLE GEARYS Pegs 7- 13 remain the hot pegs with nets to just under 100lb caught this week with maggot feeder the best tactic but bomb and bread and pole with maggot/pellet also doing well.

ANNIVERSARIES Fished ok this week with f1s and carp showing on most pegs but 6 – 10 and 23 the hot pegs. Pole with maggots fished short at around 6m as been working well and on the more open pegs bomb with wafter or 6mm pellet is having a few.

SIBLINGS A Nets to around 30lb best this week with F1s the main target bit the odd carp to double figures also showing. Dobbing bread or corn and fishing maggot down the middle has been the best approach.

SIBLINGS B . Dobbing bread across to the far bank along the reedbeds has been the top tactic but later in day the f1s are coming short to maggot fished out of your hand with nets to around 40lb best this week.

GRATUITIES Nice mixed nets of skimmers, roach, perch and chub coming to maggot or caster fished on the pole or waggler. A few carp up to double figures have come to punched bread on the bomb or waggler fished across to the island

WILLOW Nets to around 45lb were best this week with F1s and carp to 4lbs making up the catches. Waggler with pellet or bomb with pellet/bread and long pole with banded hard pellet have been the best approach with pegs 3-6 still the most consistent area.

FORTHCOMING OPEN MATCHES

SATURDAY 8th FEBRUARY – OPEN MATCH – ROVER
